

CORPORATE PRESENTATION

May 2025

This Presentation may contain forward-looking statements concerning management's current expectations for future operating and financial performance, based on assumptions currently believed to be valid and recent acquisitions, its financial and business impact, management's beliefs and objectives with respect thereto. Forward-looking statements are all statements other than statements of historical facts. The words "anticipates", "may", "can", "plans", "believes", "estimates", "expects", "projects", "intends", "likely", "will", "should", "to be", and any similar expressions or other words of similar meaning are intended to identify those assertions as forward-looking statements. It is uncertain whether the events anticipated will transpire, or if they do occur what impact they will have on the results of operations and financial condition of Aceros Arequipa whether individually or as a consolidated Company. Aceros Arequipa and its subsidiaries do not undertake any obligation to update the forward-looking statements included in this Presentation to reflect subsequent events or circumstances.

Corporate information & ESG*

Why Aceros Arequipa?

Peruvian steel market 2024

(thousand tons)

Sustained **leadership** in all core categories... ...with initiatives to leverage on **growth potential**

SOURCE: Company estimates based on imports, production and other public information.
 *Competitive market is the total Peruvian Steel market excluding products that are not commercialized by Aceros Arequipa

Go-to-market & distribution capabilities

SELF-CONSTRUCTION

Homebuilding & domestic metalwork

Better reach to self-constructors through nationwide distribution capabilities and strategic partnerships with small retailers

Comfer acquisition (2021) and investments complemented our portfolio with a nails and wires plant.

CONSTRUCTION COMPANIES

Whole-range building

Value-added services to provide efficiencies and minimize costs for construction companies

Design and BIM services for construction companies and industrial clients

Cut & bend steel products for construction

On-site Rebar & Wirerod Installation service

INDUSTRY

Industrial products & equipment

Comasa acquisition (2018)

- Increased our **market presence** in the industrial segment
- Complemented our portfolio and services with a **steel center and tubes plant**

Investments in increasing and modernizing **tubes production capacity** (Peru and Bolivia)

MINING

Consumables for mineral grinding and mine support

Round bars for grinding mining balls:

- **Melt-shop N°2 / Vaccum Degasser** allows us to produce billets required for **Round balls for grinding mining balls**
- **New Rolling mill line (#3)** will allow us to boost production capacity for Round Bars for grinding balls.

State-of-the-art equipment makes ours one of the most efficient plants in the region

Track Record of strategic investments

Rolling Mill Line N°2

Tube plant in Peru

Melt-shop N°2

Peru: Tube plant
Bolivia: Tube and Cold-formed merchant bars plant

Rolling Mill Line N°3

Largest long-steel products producer in Peru

Product availability vs importers

Competitive energy costs

(*) The Melt Shop N°1 is currently in standby mode.
(**) The company imported billets only up to 2021.

RAW MATERIALS FLEXIBILITY

Current and future initiatives

Non-Ferrous recovery

Waste reuse

Scrap cleaning process

Further growth (organic / inorganic) in **regional and international scrap yards**

Investment in restarting the **Melt-Shop N°1** to supply billets for further growth
